

Better Understanding Our Built Environment

Building an Architectural Styles Classifier

By: Gustavo Chavez

Beauty is in the way you live. Enjoy your surroundings and let them inspire you.

Architecture?

SMARTIFY

The Need for Architectural Literacy

- We spend 87% of our lives within architecture*
- Understanding/Appreciating Architecture helps people relate to community**
- Architecture influences behavior***

Modeling

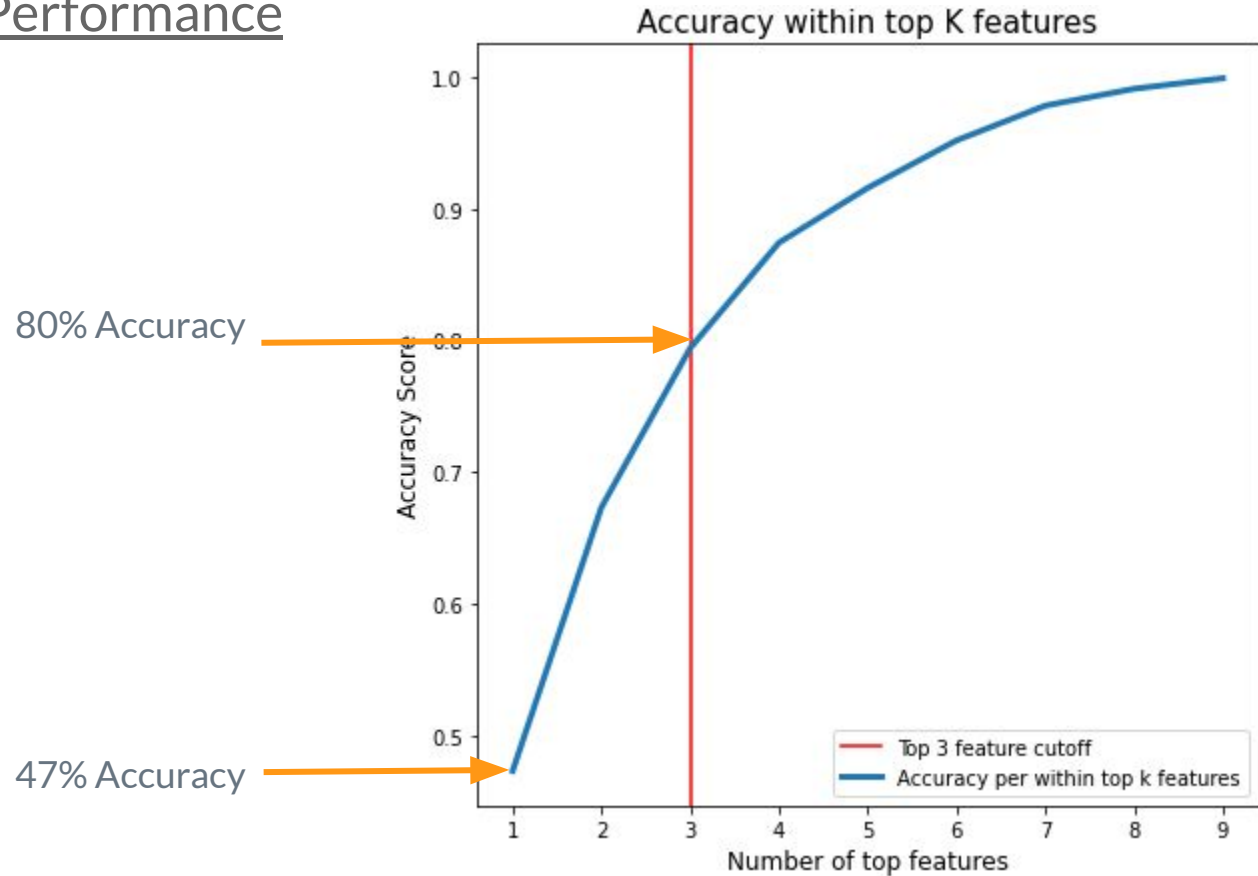

Convolutional Neural Network (CNN)

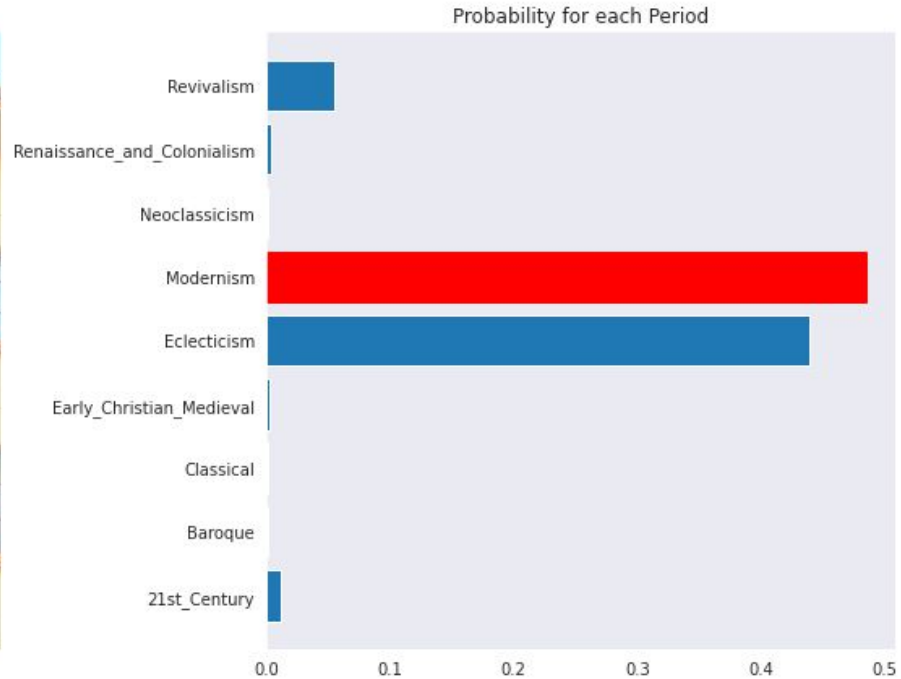

Model Produces New Images

Current Model Performance

Current Model Performance

Heatmap of Predictions

- Misclassifications occur most often with adjacent time periods
- Periods with diverse styles often misclassified

True Class

Recommendations for Architectural Style Classifier

- Zillow & AirBnB
 - Allow users to search by style
 - Allow users to get understanding of area
- Schools
 - Interactive learning
 - Student engagement with community
- Identification App
 - Increase City Tourism
 - New way to engage with surroundings

Future Work

- ▷ Increase Capacity to Gather Data
- ▷ Build Dash app to allow for Predictions
- ▷ Increase top-3 to 95+%
- ▷ Increase Problem Complexity
